

Abstract of the Invention

A carrier system for transporting equipment, such as bicycles. The carrier of a preferred embodiment of the present invention includes a spine member that is capable of having equipment mounting hardware attached to it. This equipment mounting hardware includes a platform, a cargo box, bicycle mounting hardware, golf bag mounting hardware, a flexible cover, and other types of hardware.

FIG. 1 is a perspective view of a carrier system for transporting equipment, such as bicycles, in accordance with the present invention. The carrier system includes a spine member 10, a platform 20, a cargo box 30, bicycle mounting hardware 40, golf bag mounting hardware 50, a flexible cover 60, and other types of hardware 70.
